Personal Communication Devices

We have completed more than 1/4 of Semester 1 and we would like to revisit the Personal Communication Device policy within the classroom and the school. Students and staff will not use personal devices during class time unless for a specific learning activity as directed by the teacher. Student personal devices will be stored either in the student's locker or in a pouch organizer in the classroom. Students will not access devices stored in lockers during class time. What is a personal device? Cell phones, earbuds (wired or wireless), gaming systems, ipads, chromebooks, laptops, smart watches, or any electronic device that is not specified in an individual learning plan. We want to have your full attention and focus on the learning and we appreciate your cooperation.

PARENT INFORMATION SESSIONS

SOCIAL SKILLS

**WEDNESDAY, NOVEMBER 13
6 TO 7:30 P.M.**

Technology has changed the ways we interact with one another making it challenging for some children to develop strong social skills. Social skills are important for engaging and connecting with others and parents and caregivers play an important role in helping their children develop them. Come learn about how to foster your child's social skills development in a digital age.
